

TAPEMASTER

Automatic Spine Taping Machine

HOW IT FUNCTIONS:

Books are fed into the machine horizontally.

Tape (Binding Cloth) in roll form is perfectly applied to the book spine.

The continuous tape is automatically cut to separate the books.

Any kinds of spines like, Section sewn, Centre sewn, Pads, Diaries, can be perfectly taped in this unique machine with complete finishing.

The delivered book does not need any manual touch or finishing.

TAPEmaster can be online attached to M19-STITCHmaster and M30-STITCHmaster (Programmable heavy duty wire stitching machine).

HIGHLIGHTS

- High speed
- Less Labour
- Accuracy with Consistency
- Cost Effective & Economic
- Tight binding for Center/Section sewn books, Pads, Diaries, Registers etc.
- Simple & Operator - friendly mechanism
- Better quality of end product
