

Samrat R10

Digital Cutting & Glueing Machine

Designed For Corrugated box Manufacturers, Book Binders & File Manufacturers

ADVANTAGES

- Fully Automatic
- Cost Saving
- Space Saving
- Zero Wastage
- Easy Operation
- Minimal Power Consumption
- Best for Micro & Marco Quantities
- Better Quality of end product

TECHNICAL SPECIFICATIONS

Speed : 600 m/hour
Tape Length : Max no limit - Min 100mm
Tape Width : Max 75mm - Min 15mm
Power : 350 watts, 230V AC, 50 HZ AC
Dimensions : 960x450x830mm (LxWxH)
+ Conveyor 1000mm

PROCESS COMPARISON

Features	Conventional	Samrat
Manpower	2 unskilled + 1 skilled	Automatic
Wastage	10-20%	0%
Cutting	Manual	Automatic
Size Variation	Yes	No
Counting	Manual (chances of error)	Digital (error-free)

Mount a slit roll of Binding Tape.

Set the desired **LENGTH**, Number of **Pieces to be CUT** in the **TOUCH SCREEN** Display. Select required **Speed**.

The Tape will be cut to **EXACT LENGTH** with the tolerance of 1mm.

After Cutting, the Tape is forwarded to a **GLUING** Station, where it is glued from bottom. Then the Tape is carried on a conveyor from where it can be picked up manually and pasted on the required Surface.

SAMRAT R10 FEATURES

MECHANICAL

Heavier Design
Bigger GUM TANK
Two side usable Fingers
Hanging Delivery Conveyor

ELECTRICAL

Modern Technology Electronic Panel
Touch Screen Control
Adjustable Target Quantity
Tape Reel Length Calculator
Shows Exact Machine Speed (Cuts/Minute)
DC Motor, DC Drive, Batch Counter,
Sensor, Sensor Wheel Eliminated

FEATURES

20% Higher Speed
Lower Maintanance
Size Setting in INCHES or MM
Size Setting in multiple of 1mm
GUM TANK Overflow & Drain
